DANALI MOUNTAIN

N SERIES

Introducing the N Series, inspired by the world-renowned Danali mountain range. This guitar collection embodies the essence of luxury and excellence, just like the majestic Danali peaks.

Crafted with premium Solid Top Board, Back & Sides made from rare Layered 5A grade materials, adorned with a lavish Polyurethane gloss finish, and equipped with a Pick Guard Plate for added protection against the shiny surface, and assembled with the highest level of meticulous handcraftsmanship, the N Series delivers exceptional tonal quality. Designed for professional musicians, these guitars are a perfect fusion of craftsmanship and performance, echoing the grandeur and beauty of the Danali mountains. Elevate your musical experience with the N Series, where artistry meets nature's magnificence.

ROCKY MOUNTAIN

R SERIES

The Rocky Mountains Series reflects the unforgettable beauty of the mountain range whose name it shares. We are sure these top-of-the-line models will achieve a high level of enjoyment for professional players.

Rocky Mountain Series includes a variety of guitars with different body shapes, scales, finishes and tonewoods, offering a wide range of choices. They come with all solid bodies for the fullest acoustic tones. Patented ToneFlow bracing system (Except BAR1H, BAR1HM) further boosts vibrations across the body, creating a wider tone spectrum and richer flavors than conventionally braced guitars. Individual setup at factory and meticulous attention to detail ensure sensational playing comfort on our Rocky Mountain Series guitars.

TAHOMA

T SERIES

Inspired by the majestic reputation of the Tahoma volcano in the Pacific Ring of Fire, Tahoma Series is our step-up line designed for advanced players.

Tahoma Series features a solid top to deliver delicate tones. Solid Sitka spruce top models sport an articulate, clear tone and prolonged sustain while solid mahogany top models produce a relatively smoother and warmer hue. Patented ToneFlow bracing system (Except BAT1N) is incorporated to help boost resonances and richness. The Electric Acoustic models feature an under-saddle pickup, and a three-band Bromo EQ with built-in tuner, ideal for live performance and recording. To raise environmental awareness, we crafted BAT1N, a plastic free guitar with all natural materials.

APPALACHIA

A SERIES

The Appalachia Mountains and this region's links to traditional music and the guitar, provide the inspiration for the name of our line for budding guitarists.

Appalachia Series sets out to be budget friendly, yet it is designed and built for playability and enjoyment. It has all you want from a good guitar to start your music journey: great sound, precise intonation and superb playability. Its outstanding build and striking tonal quality will definitely reward you with many years of musical enjoyment.

BLANC

B SERIES

In answer to the call to provide greater selection in price and design, we created this new series and named it after Mt. Blanc, one of the most beautiful massifs on earth and the birthplace of modern mountaineering, as the birthplace of guitar dreaming.

Mt. Blanc Series is furnished with beauty in simplicity. This saves us tons of work from complicated details and allows us to further lower the price tag. Yet players will appreciate that the souls of Bromo guitars - effortless playability, precise intonation and outstanding workmanship - are well retained in Mt. Blanc Series guitars, making them a great choice to start your music journey without breaking the wallet.

BAB1

All Wood Stands Out!

Made of ALL WOOD, Bromo's PATENTED BZS1 guitar stand embraces your beloved guitar in style and elegance softly but firmly.

This art piece simply is the most beautiful guitar stand so far. It not only blends in your sweet home furnishings, but stands out with its stunning wood grain and elegant design. It's also ideal for store or show display, adding great value to your product and store image.

Solid tropical Trembesi wood is selected for its rich texture and sturdiness. All contact points are cushioned with anti-slip and anti-scratch cork pads. Another huge advantage of cork pad is that it is more finish friendly than conventional rubber pads. BZS1 is proud of being one of the first plastic free guitar stands.

BZS1

Features

- Patented
- All wood, plastic free, eco-friendly construction
- Art piece design
- Sturdy solid
- Trembesi hardwood body
- Anti-slip, anti-scratch and finish friendly cork pads
- Easy to assemble and disassemble
